

The Copyright Handbook: What Every Writer Needs to Know

Protect your written works with copyright, easily and legally! In the Information Age, writers need to take steps to protect their hard work. Fortunately, The Copyright Handbook provides everything you need to get the job done. Inside, you'll find the essential information and forms you need to protect all types of written expression under copyright law. Let The Copyright Handbook show you how to: register your work, maximize copyright protection, use a copyright notice, transfer ownership of copyright, avoid infringement, deal with infringers, understand the fair use rule, get permission to use copyrighted work, and profit from your copyright. The 11th edition has been completely updated to provide the latest case law and copyright regulations, and includes new information about electronically filing for copyright and expanded coverage of Internet works, such as blogs. The CD-ROM provides over 30 up-to-date legal and copyright forms.

There's far more to Sorry, the book that you are looking for is not available right now. We did a search for other books with a similar title, and found

some results for This is a comprehensive and useful book for authors. It was also surprisingly easy to read given the topic. The author did a very good job, I think, of explaining Fishman has taken the very complicated world that is copyright law and simplified it in this text. The book itself is easy to read, well organized, and gives It is well-written, easy to understand and informative, and lays out every area that a writer needs to understand to protect themselves and their work. If you create intellectual property or want to use (or borrow) the intellectual property of someone else, you should probably read this book. There's far more to
