

Labcraft Wizards: Magical Projects and Experiments

Being a wizard takes training, practice, and a few tips from an expert. Author and professional toy designer John Austin, creator of the popular MiniWeapons of Mass Destruction series, provides dozens of projects for up-and-coming spellcasters. Each of the 35 projects in Labcraft Wizards is explained through step-by-step instructions with illustrations, and uses easy-to-locate, everyday materials. Build an Enchanted Hourglass out of empty soda bottles, plastic hangers, and sand. Transform a chicken egg into a colorful, bouncy Dragon Egg using vinegar and food coloring. Capture a cloud in a glass jar, or mix up a batch of Ogre Snot with corn syrup and gelatin. Through its creative activities, Labcraft Wizards also helps eager minds explore basic concepts in chemistry and physics through experimentation, encourages observation and speculation, and fuels young imaginations.
