

Patent Professionals Handbook, 5th edition

The purpose of this Patent Professionals Handbook is to be a handy, ready reference guide for administrative staff, paralegals, support professionals in patent law firms and IP departments. As a reference guide, it is hoped that this will reduce the amount of instruction time a Registered Patent Practitioner or Patent Agent must spend with his/her staff for training and review. The arrangement of the topics facilitates thorough initial patent filings through issuance and maintenance. Many useful features include tables, diagrams, charts, glossary, key terms, and examples to illustrate the points made in this Handbook. This Handbook has been updated to include the most recent provisions of the America Invents Act and the Patent Law Treaty. Also, this Handbook is very useful for those who want to learn the basics and dynamics of the Intellectual Property field and expand their horizons into a very good-paying position!
